

Smith & Nephew plc  
Conflict Minerals Report  
For The Year Ended December 31, 2017

**Introduction**

Smith & Nephew plc, also referred to as “Smith & Nephew”, the “company”, “we”, “our”, and “us” is a global medical technology business. We have products in the following fields: Orthopaedic Reconstruction, Advanced Wound Management, Sports Medicine and Trauma & Extremities.

This Conflict Minerals Report (“CMR”) for the year ended December 31, 2017 is presented to comply with Rule 13p-1 under the Securities Exchange Act of 1934 (the “Rule”) and Form SD. The Rule imposes certain reporting obligations on U.S. Securities and Exchange Commission (“SEC”) issuers whose manufactured products contain certain minerals which are necessary to the functionality or production of their products. These minerals are cassiterite, columbite-tantalite (coltan), gold, wolframite, and their derivatives, which are limited to tin, tantalum and tungsten (collectively, “3TG” or “Conflict Minerals”). The Rule focuses on 3TG emanating from the Democratic Republic of the Congo (“DRC”) region and nine adjoining countries (together, the “Covered Countries”). If an issuer has reason to believe that any of the Conflict Minerals in their supply chain may have originated in the Covered Countries, or if they are unable to determine the country of origin of those Conflict Minerals, then the issuer must exercise due diligence on the Conflict Minerals’ source and chain of custody and submit a CMR to the SEC that includes a description of those due diligence measures.

This CMR relates to the process undertaken for Smith & Nephew products that were manufactured, or contracted to be manufactured, during calendar year 2017 and that contain Conflict Minerals.

Third party products that Smith & Nephew sells but that it does not manufacture or contract to manufacture are outside the scope of this CMR.

**Executive Summary**

Smith & Nephew performed a Reasonable Country of Origin Inquiry (“RCOI”) on suppliers believed to provide Smith & Nephew with materials or components containing 3TGs necessary to the functionality or production of Smith & Nephew’s products. Smith & Nephew’s suppliers identified 309 valid smelters and refineries in their supply chains (“smelters”). Of these 309 smelters, Smith & Nephew identified 36 as sourcing (or there was a reason to believe they may be sourcing) from the Covered Countries. Smith & Nephew’s due diligence review indicated that all 36 of these smelters have been audited and recognized as conflict free by the Responsible Minerals Assurance Process (“RMAP”), formerly the Conflict Free Smelter Program. This CMR was subject to an independent private sector audit (“IPSA”) conducted by Resource Consulting Services Limited (“RCS Global”) in accordance with the requirements of the Rule, the audit report for which is attached as [Exhibit A](#) to the CMR.

Based on these results, Smith & Nephew is DRC Conflict Free for the 2017 reporting period.

**Company Management Systems**

Smith & Nephew established strong management systems according to Step 1 of the OECD Due Diligence Guidance. Smith & Nephew’s systems included:

Smith & Nephew plc  
Conflict Minerals Report  
For The Year Ended December 31, 2017

- Step 1A - Adopt, and clearly communicate to suppliers and the public, a company policy for the supply chain of minerals originating from conflict-affected and high-risk areas.
  - Implemented a conflict minerals policy
  - Policy made publicly available
    - <http://www.smith-nephew.com/sustainability/policies/conflict-minerals/conflict-minerals-policy/>
  - Policy communicated directly to suppliers as part of RCOI process
- Step 1B - Structure internal management to support supply chain due diligence
  - Maintained an internal cross functional team to support supply chain due diligence
  - Appointed a member of the senior staff with the necessary competence, knowledge, and experience to oversee supply chain due diligence
  - Applied the resources necessary to support the operation and monitoring of these processes including internal resources and external consulting support.
- Step 1C - Establish a system of transparency, information collection and control over the supply chain
  - Implemented a process to collect required supplier and smelter RCOI and due diligence data. Full details on the supply chain data gathering are included in the RCOI and due diligence sections of this CMR.
- Step 1D - Strengthen company engagement with suppliers
  - Directly engaged suppliers during RCOI process.
  - Reviewed supplier responses as part of RCOI process.
  - Added conflict minerals compliance to new supplier contracts and Smith & Nephew's supplier code of conduct.
  - Implemented a plan to improve the quantity and quality of supplier and smelter responses year over year.
- Step 1E - Establish a company and/or mine level grievance mechanism.
  - Recognized the RMAP's three audit protocols for gold, tin/tantalum, and tungsten as valid sources of smelter or mine level grievances.
  - Smith & Nephew's ethics violations reporting system allows employees to voice confidentially without any fear of retribution, any concerns with the violations of the Smith & Nephew's conflict minerals policy

### **Reasonable Country of Origin Inquiry (RCOI)**

Smith & Nephew designed its RCOI process in accordance with Step 2A and 2B of the OECD Due Diligence Guidance. Smith & Nephew's RCOI process involved two stages:

- Stage 1 - Supplier RCOI (Step 2A of the OECD Due Diligence Guidance)
- Stage 2 - Smelter RCOI (Step 2B of the OECD Due Diligence Guidance)

#### *Supplier RCOI*

Smith & Nephew plc  
Conflict Minerals Report  
For The Year Ended December 31, 2017

Smith & Nephew designed its supplier RCOI process to identify, to the best of Smith & Nephew's efforts, the smelters in Smith & Nephew's supply chain in accordance with Step 2A of the OECD Due Diligence Guidance. Smith & Nephew's supplier RCOI process for the 2017 reporting period included the following:

- Developing a list of suppliers providing 3TG containing components to Smith & Nephew.
- Contacting each supplier and requesting the industry standard Conflict Minerals Reporting Template ("CMRT") including smelter information.
- Reviewing supplier responses for accuracy and completeness.
- Amalgamating supplier provided smelters into a single unique list of smelters meeting the definition of a smelter under one of three industry recognized audit protocols.
- Reviewing the final smelter list (and compared it to industry peers) to determine if Smith & Nephew identified reasonably all of the smelters in their supply chain.

For the 2017 reporting period, Smith & Nephew's RCOI process was executed by Claigan Environmental Inc. ("Claigan").

Smith & Nephew's suppliers identified 309 smelters in their supply chain. The specific list of smelters is included in the "Smelters and Refineries" section at the end of this CMR.

#### *Smelter RCOI*

Due to the overlap between smelter RCOI and smelter due diligence, the smelter RCOI process is summarized in the due diligence section of this CMR.

#### **Due Diligence**

Smith & Nephew's due diligence process was designed in accordance with the applicable sections of Steps 2, 3, and 4 of the OECD Due Diligence Guidance. The due diligence process has been audited by RCS Global, Smith & Nephew's independent private sector auditor. The audit report is set forth as Exhibit A to the CMR.

#### *Smelter RCOI and Due Diligence*

Smith & Nephew's smelter RCOI and due diligence process were designed to:

- Identify the scope of the risk assessment of the mineral supply chain (OECD Step 2B).
- Assess whether the smelters/refiners have carried out all elements of due diligence for responsible supply chains of minerals from conflict-affected and high-risk areas (OECD Step 2C).
- Where necessary, carry out, including through participation in industry-driven programs, joint spot checks at the mineral smelter/refiner's own facilities (OECD Step 2D).

Smith & Nephew's smelter RCOI and Due Diligence Process included the following:

Smith & Nephew plc  
Conflict Minerals Report  
For The Year Ended December 31, 2017

- For each smelter identified in Smith & Nephew's supply chain:
  - Smith & Nephew attempted direct engagement with the smelter to determine whether or not the smelter sources from the Covered Countries
  - For smelters that declared directly (e.g. email correspondence, publicly available conflict minerals policy, or information available on their website) or through their relevant industry association that they did not source from the Covered Countries, and were not recognized as conflict free by the RMAP, Smith & Nephew reviewed publicly available information to determine if there was any contrary evidence to the smelter's declaration. The sources reviewed included:
    - Public internet search (e.g., Google) of the facility in combination with each of the Covered Countries
    - Review of specific NGO publications. NGO publications reviewed included:
      - Enough Project
      - Global Witness
      - Southern Africa Resource Watch
      - Radio Okapi
    - The most recent UN Group of Experts report on the DRC
- For smelters that did not respond to direct engagement, Smith & Nephew reviewed publicly available sources to determine if there was any reason to believe that the smelter may have sourced from the Covered Countries during the reporting period.
  - Smith & Nephew reviewed the same sources as those used to compare against smelter sourcing declarations.
- For high risk smelters (smelters that are sourcing from or there is reason to believe they may be sourcing from the Covered Countries), Smith & Nephew requires the smelter be audited and recognized as conflict free by the RMAP.
  - For high risk smelters that have not been audited and recognized as conflict free by the RMAP, Smith & Nephew communicates the risk to a designated member of senior management (OECD Step 3A) and conducts risk mitigation on the smelter according to OECD Step 3B.

For the 2017 reporting period, Smith & Nephew's smelter RCOI and due diligence process was executed by Claigan.

Smith & Nephew's suppliers identified 309 smelters in their supply chain. Smith & Nephew identified 36 smelters that source, or there is a reason to believe they may source, from the Covered Countries. Smith & Nephew determined that all 36 of these smelters have been audited and recognized as conflict free by the RMAP.

### **Improvement Plan**

Smith & Nephew is taking and will continue to take the following steps to improve the due diligence conducted to further mitigate risk that the necessary conflict minerals in Smith & Nephew's products could directly or indirectly benefit or finance armed groups in the Covered Countries:

Smith & Nephew plc  
Conflict Minerals Report  
For The Year Ended December 31, 2017

- a. Including a conflict minerals clause in all new and renewing supplier contracts.
- b. Continuing to drive its suppliers to obtain current, accurate, and complete information about the smelters in their supply chain.
- c. Engaging smelters sourcing from the Covered Countries to be audited and certified to a protocol recognized by the RMAP.
- d. Follow up in 2018 on smelters requiring risk mitigation, but not removal from Smith & Nephew's supply chain.

### Independent Private Sector Audit

Smith & Nephew obtained an independent private sector audit of whether the design of its due diligence process (as described above) conforms to a recognized due diligence framework and whether its description of the due diligence process included in the CMR is consistent with the due diligence measures that it undertook. The audit report is set forth in [Exhibit A](#) to the CMR.

### Smelters and Refineries

Below are the smelters reported to Smith & Nephew as likely in Smith & Nephew's supply chain in the 2017 reporting period.

Metal	Smelter
Gold	Abington Reldan Metals, LLC
Gold	Advanced Chemical Company
Gold	Aida Chemical Industries Co., Ltd.
Gold	Al Etihad Gold Refinery DMCC
Gold	Allgemeine Gold-und Silberscheideanstalt A.G.
Gold	Almalyk Mining and Metallurgical Complex (AMMC)
Gold	AngloGold Ashanti Córrego do Sítio Mineração
Gold	Argor-Heraeus S.A.
Gold	Asahi Pretec Corp.
Gold	Asahi Refining Canada Ltd.
Gold	Asahi Refining USA Inc.
Gold	Asaka Riken Co., Ltd.
Gold	Atasay Kuyumculuk Sanayi Ve Ticaret A.S.
Gold	AU Traders and Refiners
Gold	Aurubis AG
Gold	Bangalore Refinery
Gold	Bangko Sentral ng Pilipinas (Central Bank of the Philippines)
Gold	Boliden AB
Gold	C. Hafner GmbH + Co. KG
Gold	Caridad
Gold	CCR Refinery - Glencore Canada Corporation

Smith & Nephew plc  
Conflict Minerals Report  
For The Year Ended December 31, 2017

Gold	Cendres + Métaux S.A.
Gold	Chimet S.p.A.
Gold	Chugai Mining
Gold	Daejin Indus Co., Ltd.
Gold	Daye Non-Ferrous Metals Mining Ltd.
Gold	Degussa Sonne / Mond Goldhandel GmbH
Gold	DODUCO Contacts and Refining GmbH
Gold	Dowa
Gold	DSC (Do Sung Corporation)
Gold	Eco-System Recycling Co., Ltd.
Gold	Emirates Gold DMCC
Gold	Geib Refining Corporation
Gold	Gold Refinery of Zijin Mining Group Co., Ltd.
Gold	Great Wall Precious Metals Co., Ltd. of CBPM
Gold	Guangdong Jinding Gold Limited
Gold	Gujarat Gold Centre
Gold	Guoda Safina High-Tech Environmental Refinery Co., Ltd.
Gold	Hangzhou Fuchunjiang Smelting Co., Ltd.
Gold	HeeSung Metal Ltd.
Gold	Heimerle + Meule GmbH
Gold	Heraeus Metals Hong Kong Ltd.
Gold	Heraeus Precious Metals GmbH & Co. KG
Gold	Hunan Chenzhou Mining Co., Ltd.
Gold	HwaSeong CJ Co., Ltd.
Gold	Inner Mongolia Qiankun Gold and Silver Refinery Share Co., Ltd.
Gold	Ishifuku Metal Industry Co., Ltd.
Gold	Istanbul Gold Refinery
Gold	Italpreziosi
Gold	Japan Mint
Gold	Jiangxi Copper Co., Ltd.
Gold	JSC Ekaterinburg Non-Ferrous Metal Processing Plant
Gold	JSC Uralelectromed
Gold	JX Nippon Mining & Metals Co., Ltd.
Gold	Kazakhmys Smelting LLC
Gold	Kazzinc
Gold	Kennecott Utah Copper LLC
Gold	KGHM Polska Miedź Spółka Akcyjna
Gold	Kojima Chemicals Co., Ltd.
Gold	Korea Zinc Co., Ltd.
Gold	Kyrgyzaltyn JSC
Gold	Kyshtym Copper-Electrolytic Plant ZAO

Smith & Nephew plc  
Conflict Minerals Report  
For The Year Ended December 31, 2017

Gold	L'azurde Company For Jewelry
Gold	L'Orfebre S.A.
Gold	Lingbao Gold Co., Ltd.
Gold	Lingbao Jinyuan Tonghui Refinery Co., Ltd.
Gold	LS-NIKKO Copper Inc.
Gold	Luoyang Zijin Yinhui Gold Refinery Co., Ltd.
Gold	Marsam Metals
Gold	Materion
Gold	Matsuda Sangyo Co., Ltd.
Gold	Metalor Technologies (Hong Kong) Ltd.

36 of the smelters above declared to be sourcing or there was reason to believe are sourcing from the Covered Countries. Under the Rule, the requirement is to identify whether or not a smelter is sourcing from the Covered Countries; there is no requirement to identify the specific covered country by the smelter. Given the limitation on the specificity of the smelters' disclosures, the identified Covered Countries are the Democratic Republic of the Congo, Rwanda, Burundi, Uganda, and Tanzania.
