

Grants & Donations Request Procedures

What We Do:

Smith & Nephew helps people regain their lives. One way to accomplish this goal is through the funding of educational and research programs throughout the medical community and providing cash and in-kind contributions to civic organizations.

The Awards and Grants Committee of Smith & Nephew's Wound Management, Canada may provide Grants and Donations to non-profit and/or charitable organizations, medical institutions, accredited educational program vendors, medical foundations or professional societies that are entitled to receive such funding under local laws. We do not provide Grants or Donations to individual Healthcare Professionals.

Although each request is considered on individual merits, Grants and Donations generally are not made (1) to individuals, (2) to for-profit physician practices, groups, associations or entities, (3) to patients, or (4) on behalf of customers or patients. Grants and Donations are considered without regard to historical or prospective use or purchases by applicants of Smith & Nephew products or services. Smith & Nephew Sales and Marketing Personnel are not involved in reviewing, approving or funding Grantor donation requests.

How to Request Grants or Donations:

Please prepare a written request in letter format, on the letterhead of the requesting institution or association, and forward to Grants Committee, Smith & Nephew Canada, 2280 Argentia Road, Mississauga, Ontario L5N 6H8, at least 60 days prior to the event date, to include:

- Organization's name, address and proof of not-for-profit status or charitable registration number
- A description, agenda and purpose of the specific charitable, educational or humanitarian event and the anticipated time, duration and location of the event
- The amount requested and an explanation or budget of how the funds will be spent. If the grant is approved, we will require the name and address of the foundation or association that the support monies would be payable to.
- For product donation grants, a list of requested products along with the purpose and ultimate destination of the products.
- For sponsorships, the type of event and proposed agenda/subject matter, date, location and the name of the foundation or association to whom the monies would be paid.
- Research grants are handled through a different process. If applying for support of a research grant, you will need to include with your request letter, a copy of the study protocol and budget with milestones. Upon receipt we will forward to our clinical team for review and further documentation may be required.
